Determine age of animals with the help of Diagram of teeth Example Cow/Ox and Buffaloes

Index no.	Age	Diagram of teeth	No. of teeth
1	On birth		2 milk teeth
2	After 15 days		4 milk teeth
3	After 21 days		6 milk teeth
4	After 30 days		8 milk teeth

Determine age of animals with the help of Diagram of teeth

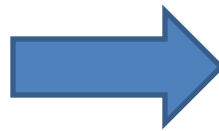

Example Cow/Ox and Buffaloes

Index no.	Age	Diagram of teeth	No. of teeth
5	After 2 to 3 Years		Two Permanent Teeth and six milk teeth
6	After 3 to 4 Years		Four Permanent Teeth and Four milk teeth
7	After 4 to 5 Years		Six Permanent Teeth and Two milk teeth
8	After 5 Years		8 Permanent teeth

Determine age of animals with the help of teeth For Example Goat

The goat has Four permanent and Four milk teeth, therefore its age is more than 30 Day's.

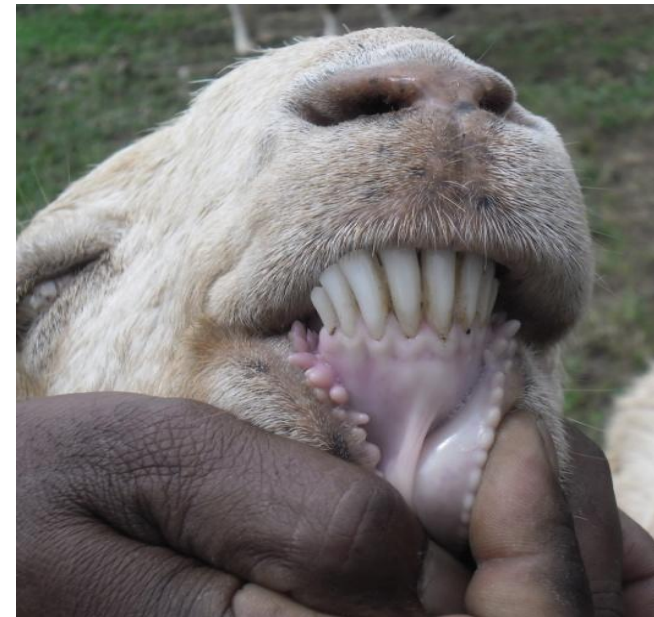

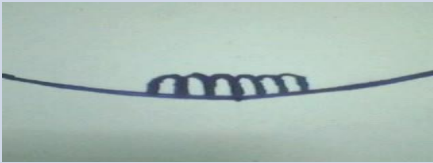

Learning
